# Original Insulated Auto-Injector Pouches

The number one choice of schools, kinders and child care centres.

Safely store and carry your **Anaphylaxis Epinephrine auto-injector.**

- Made of lightweight, heavy duty material
- Three layers of protection - Silver inner liner, foam core and tough outer skin
- No zip design (Velcro closure) ensures quick and easy access in an emergency. Never get stuck.
- Key ring attached to top of pouch
- ID tag inside of pouch opening
- Elasticised belt loops on back allows pouch to be worn horizontally or vertically
- Easily identified as a medical product with printing on the front of the unit.

Single pouches in yellow with red trim or blue with grey trim.

Twin pouches in soft sea blue with black trim

## Three layers of protection

1 Thermal silver inside layer

2 Inner shock absorbent foam

3 Attractive and tough outer skin

- Store two Epipen, Anapen or Twinject auto-injectors or;
- Single auto-injector and antihistamine
- Single auto-injector and Asthma inhaler
- Same great features as the single holder

**Light  
Compact  
Convenient**

**ACTIVEAIDE  
CITY**

- Lightweight and compact unit
- Made of Neoprene (Cooler material)
- Has belt loops to wear on any belt
- Has a key ring for hanging or attaching devices
- Made to suit EpiPen, AnaPen or Twinject

**Three Great Colours**

# ACTIVEAIDE ACCESSORIES

## PLASTIC ID HOLDER WITH CLIP AND PHOTO INSERT CARD

Used by schools to distinguish which auto-injector belongs to which child.

## ADJUSTABLE AUTO-INJECTOR HOLDER WAIST BELT

Suits the original auto-injector holder, City auto-injector holder and Asthma sports holder.

## ALUMINIUM PILL HOLDER IN TWO GREAT COLOURS

Clips on onto your holder or place it into any of the pouches in our range. Screw on top.

## CARABINER CLIPS FOR ANY USE

Use to hang your injector up at home or at school, or clip your injector case or Asthma sports pouch to your jeans, school bag or anywhere else.

## ANAPHYLAXIS AUTO-INJECTOR TRAINERS - PRACTICE AND BE PREPARED

Only the EpiPen® and AnaPen® Trainers should be used to practice, training and demonstrations.

These training units contain no needle or medicine but work like the real units, simulating the step procedures.

The **BEST** way to ensure that your family and those that care for your children know what to do in an emergency is practice.

# WONDERFUL AND EDUCATIONAL KIDS BOOKS

## Jeremy's First School Camp

Chapter Book - 8 years +

Jeremy has Anaphylaxis and is going on his first school camp.

Jeremy is growing up and so are his readers. There are ten exciting chapters all about Jeremy going to camp. Help your child prepare for camp by sharing Jeremy's camp experience. Going on camp for the first time is a challenge and everyone needs to be well prepared. Share this story with your child's teacher and class.

The story covers topics like midnight feasts, peer pressure and looking out for your mates.

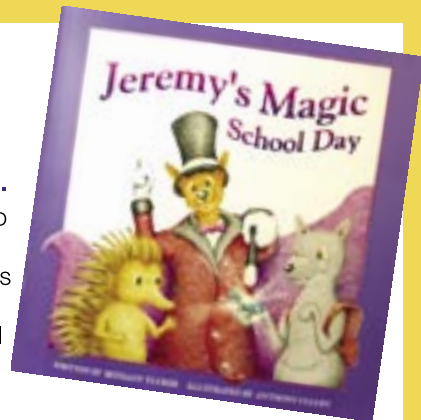

## Jeremy's Magic School Day

Ages 3-9

Second book in the Jeremy series.

Teachers and friends help keep Jeremy safe at school.

Jeremy the wallaby is now at school with his friends Bruno and Edward. A visit by a magician has surprises for everyone. Poppy the new classmate says the magician has magic wish lollies. What is Jeremy going to do? He is allergic to nuts and eggs. Jeremy's friends and the school make sure the day is just as magic and safe for him even though he has allergies.

## Jeremy's Cake

Ages 3-9

Jeremy has nut and egg allergy and is going to his first birthday party.

This book is ideal to foster self-management in young children. Jeremy the wallaby is allergic to egg and nuts.

Join Jeremy as he attends a birthday party on his own. There is a lot for him to remember, his medication, what he can and cannot eat and to have fun.
