

# Safely Carry and Store your Emergency Auto Injector

## Activeaide Auto Injector Pouch

The Activeaide Auto Injector Pouch is designed to carry an adrenalin auto-injector such as the Epipen®, Twinject® and Anapen®.

It is made of light weight, heavy duty material with a padded core and an internal thermal silver lining.

It can be carried in your bag, hooked onto a belt strap, or worn on a waist belt so that you can safely carry it with you at all times. The key ring at the top of the pouch can be used to attach an identification tag, an action plan or for storing on a hook in an appropriate safe place, eg. at home, kinder or school.

Easily identifiable as a medical aid, the pouch also has a label on the inside cover for your personal details.

- Insulated
- Lightweight heavy duty fabric
- Padded Interior
- Velcro Close
- Key Ring
- Belt Straps
- UV Protected
